

Connect and Play Program

Program Highlights

Each child will have a tailored therapeutic program built on their interests and learning style consisting of speech therapy, occupational therapy and physical therapy that supports communication and play.

Therapy sessions and support during the entire program will be provided by licensed specialized practitioners, not aides or assistants.

Children will have small group 'Lunch Bunch' where they can enjoy time together with other unique learners.

Enrichment Sessions

Enrichment sessions will be held Monday through Thursday to allow your child to experience and make connections with their environment in a positive and multisensory way.

These sessions will range from Art, Drumming Circle, Yoga and Music!

Friday Family Days!

Family Fun Days are a great time to generalize all the new skills your child has learned while having fun as a family! We will be there to support parents on how to navigate new, novel and everyday situations and form stronger connections as a family.
